Fusce vulputate est sed risus feugiat faucibus. Nunc pulvinar sodales leo, a scelerisque orci aliquam ac.

Trademarks

Qt 4.4.3

NCReport Release Notes

v2.1.3

Release date: 10.Oct.2008

Bugfixes:

- Replacing QPixmap to QImage in report engine made the image printing / rendering very slow and unefficient. Now it's possible to use both two by using or leaving USE_QIMAGE_INSTEAD_OF_QPIXMAP macro at ncreport.pro and designer.pro
